Wireless Speaker with Google Cast™

Features and Benefits

Easily cast music to your speakers

With Google Cast™ speakers, Google Cast™ is built-in. Just tap the Cast button from your favorite mobile music apps to instantly start playing on the speakers. Then control the speakers right from your phone – search, play, pause and turn up the volume – anywhere in the house.

Listen to your favorites, anytime

Choose from millions of songs from popular music services like Spotify, Pandora, Google Play™ Music, TuneIn and iHeartRadio or catch up on current events with NPR podcasts. New apps are constantly being added so there's no end to the music, online radio stations and podcast you can enjoy. Discover more at <https://www.google.com/cast/apps/>.

Spotify Connect, a better way to listen at home

Play Spotify through your speakers, laptop and TV, using the Spotify app as a remote. Use the "One Touch" Play feature on Playlist speaker to play your favorite playlist instantly.

24bit/96kHz High quality sound, powered by the cloud

Google Cast™ streams directly from the cloud, so you get the highest sound quality. Enjoy crystal clear sound exactly the way the artists intended.

Enjoy your music without interruption

With Google Cast™, you can keep using your phone while you cast your music. Answer a phone call, play a game, send a text, and even leave the room, all without interrupting what's playing on the speakers or draining your battery.

Simple setup and multi-room control with Google Cast™ app

Easily set up your system and control multi-room playback with the Google Cast™ app. A step by step in-app guide you can quickly start streaming your music.
